

48V capacitor

What is a Maxwell 48V ultracapacitor module?

Maxwell 48V Ultracapacitor Modules | Exceeding the most demanding testing requirements for transportation applications such as hybrid buses.

What's new in a 48V module?

Our industry-leading 48V module now includes the benefits of our new DuraBlue(TM) Advanced Shock and Vibration Cell Technology.

What is a capacitor Management System (CMS)?

The new module will offer advanced capacitor management system options (CMS) for improved reliability as well as safety enhancements which include a redundant over-voltage alarm, while maintaining existing product life characteristics.

Can a Maxwell ultracapacitor be transported?

Both individual ultracapacitors and modules composed of those ultracapacitors shipped by Maxwell can be transported without being treated as dangerous goods (hazardous materials) under transportation regulations. Duration = 60 seconds. Not intended as an operating parameter.
