

805080 Battery Charging Module

Polymer Li-Ion Cell: 3.7V 4000mAh (805080-1C, 14.8Wh, 4A rate) Total solution for Portable Power since 1995 . Products are designed, assembled & Quality Controlled in USA.

A battery charger module is an electronic device that charges batteries by converting AC power to DC power. The charger module regulates the charging current and ...

The micro USB port can be used to charge the battery if the charger is not connected, then neither the green led or yellow led will glow. We can use any 5V charger with this module, just make sure the output current of ...

TP5000 Battery Charger Module. TP5000 Module Pinout . The TMP5000 module is a breakout board that contains the TP5000 single-cell LiPo battery charging IC and ...

Lithium Polymer Battery Pack LP805080 4000mAh 3.7V with Protection Circuit Module (PCM) This data sheet describes the requirements and properties of lithium polymer rechargeable ...

The PCM would control the battery voltage from going too high (over-charging) or low (over ...

805080 3.7V 4000mAh Li-Po Battery for Various Applications Mobile phones, digital cameras, camcorders, portable audio players, speakers, electric toys, remote controls, drones, model ...

High Quality 805080 3.7v 4000mah Lithium Ion Battery With Pcb And Connector, Find Complete Details about High Quality 805080 3.7v 4000mah Lithium Ion Battery With Pcb And ...

In addition to safely charging a lithium battery the module also provides necessary protection required by lithium batteries. See below concerning the protection features this module ...

No. Item Spec Note 1 Model Number 805080 / 4000mAh 2 Charge Limited Voltage 4.2V 3 Nominal Voltage 3.7V Cell shipping Voltage between 3.6V ~3.9V before 4 Nominal Capacity ...

This TP4056 1A Li-ion lithium Battery Charging Module With Current Protection - Type C is a tiny module, perfect for charging single cell 3.7V 1 Ah or higher lithium-ion (Li-Ion) cells such as 16550s that don't have their own protection ...

A sound module must-have features such as overvoltage, overcurrent, and short-circuit protection to avoid damage to the battery and the module. Lastly, battery charging ...

805080 Battery Charging Module

Buy Ufine custom 3.7V 4000mAh lithium ion battery 805080. High energy density, and long battery life. Find more rechargeable li-polymer battery products here. Tel: +8618665816616 ...

*Do not throw or bump the battery violently *Never try to connect the positive and negative terminals with metal or other conductors *Do not weld the battery directly or discompose the ...

*Do not throw or bump the battery violently *Never try to connect the positive and negative terminals with metal or other conductors ...

Our rechargeable 3.7V 4000mAh lithium polymer battery with a protection circuit module(PCM), and two standard 114mm wires, and JST SYP-02T-1. It's possible to add NTC, ...

Battery Type: Rechargeable LiPoly Battery Part Number: LP805080, 805080, 085080 Voltage: 3.7V Capacity: 4000mAh / 14.8Wh Protection Circuit: Yes Wires: UL1571 24AWG 150mm*2 ...
