

Buenos Aires lithium battery screw pump manufacturer

Where will lithium batteries be made in Buenos Aires?

State company Y-TEC, the tech arm of YPF, will open the first lithium battery cell factory in September, in La Plata, the capital of Buenos Aires province. Another plant, five times bigger, will kick off in Santiago del Estero in 2024.

Does Argentina need a pump?

Argentina's significant oil and gas industry requires pumps for drilling, extraction, and transportation. The country's mining industry, which is the fourth-largest producer of lithium worldwide, also relies heavily on pumps for its operations. Location: Carlos Berg 3151 (C1437FNE) Autonomous City of Buenos Aires, Argentina.

How many people can a lithium battery power Buenos Aires?

The plant will generate 15 megawatts per year, which means it will produce lithium batteries capable of powering 2500 households. The batteries are envisaged for use in rural areas. For example, there is already a Buenos Aires province-backed project to supply the Paulino-Berisso island, home to 70 families who are currently off the power grid.

Is YPF lithium launching a lithium battery project in Argentina?

The battery project is linked to another, more ambitious one, that of YPF Lithium, YPF's business unit that intends to compete in the exploration and production of lithium carbonate in northern Argentina.

Will a new Lithium Project churn out in Argentina?

Four new projects will finally begin to churn out lithium in the weeks and months ahead, according to a yet-to-be released federal government time-line seen by Bloomberg News. That will almost double production capacity in Argentina, whose growth potential has long lured the attention of battery makers around the world.

How many companies are involved in a lithium project in Argentina?

These are some of the findings from a report prepared by the consulting firm Aleph Energy, led by Daniel Dreizzen, which analyzes the global lithium market while delving into Argentina in greater detail. These are the 41 companies of various characteristics that participate in the country's 64 projects.
