

# Capacitor housing and preparation method thereof

A thin-film capacitor housing heat dissipation coating is prepared from, by mass, 35 parts of resol, 3 parts of gelatin, 5 parts of glycidyl methacrylate, 3 parts of sodium dodecyl benzene ...

The invention belongs to the field of super-capacitor design, and discloses a MnO<sub>2</sub> and Fe<sub>2</sub>O<sub>3</sub> nanostructure-based flexible asymmetric super-capacitor and a preparation method as well as ...

The invention discloses a capacitor and a preparation method thereof, wherein the capacitor comprises a shell, a core group, pouring sealant, a communicating pipeline and an explosion ...

A technology of film capacitors and heat-dissipating coatings, applied in coatings and other directions, can solve problems such as easy cracking, crushing, unstable power supply of ...

The present invention relates to a molded housing standard capacitor and manufacturing method, standard housing mold portion capacitor electrode of the present invention is provided with the ...

CN103402311A Material of embedded capacitor as well as preparation method and application thereof : 11/20/2013

The super polyimide capacitor of the present invention comprises a capacitor housing, an electrolyte solution and a power-core; the power-core is encapsulated in the ...

The safe capacitor has the advantage of relatively steady structure. The invention also discloses a preparation method of the safe capacitor. CN105551795A - Safe capacitor and preparation ...

Supercapacitor is a new type of energy storage element between traditional capacitor and battery. Particulate leaching method, which was used to increase specific ...

The invention discloses an X9R ceramic capacitor dielectric material and a preparation method thereof. The material comprises 95 to 98 molar percent of barium titanate-sodium bismuth ...

DE102006005832A1 Capacitor has capacitor winding, which is arranged in housing, comprising conductive winding layer, where distance of later welding area to outer surface of housing is...

A three-dimensional capacitor/inductor based on a high-functional-density through-silicon via structure, and a preparation method. The three-dimensional ...

# Capacitor housing and preparation method thereof

capacitors (SCs), which have been applied in various areas, including hybrid electric vehicles, portable and multifunctional electronics, microgrid, as well as industrial equipment. ...

The invention discloses a multi-component capacitor aluminum housing film-laminating coating and a preparation method thereof. The multi-component capacitor aluminum housing...

The invention discloses a rubber material for capacitor housing and a preparation method thereof. Raw materials of a composition A and a composition B are treated with rubber compound...

The invention relates to the technical field of capacitor manufacturing, in particular to a capacitor and a preparation method thereof. The outer surface of the core group of the...

In the present exemplary implementation mode, the effective level signal provided by the first scanning line controls the writing time of the data voltage provided by the ...
