

# Conditions for battery companies to enter Tuvalu

How can Tuvalu improve its energy security?

to enhance Tuvalu's energy security by reducing its dependence on imported fuel for power generation and by improving the efficiency and sustainability of its electricity system.

Where does Tuvalu electricity come from?

Tuvalu's power has come from electricity generation facilities that use imported diesel brought in by ships. The Tuvalu Electricity Corporation (TEC) on the main island of Funafuti operates the large power station (2000 kW).

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

How much does it cost to install solar panels in Tuvalu?

Due to Tuvalu's limited land area, the solar panels will run along the landing strip at Tuvalu's airport alongside the soccer field. The contract price for the solar PV facility was about \$5 million, with the remaining funding provided by IDA.

How many inhabited islands are in Tuvalu?

It is somewhat complicated because Tuvalu consists of nine inhabited islands. The Tuvalu National Energy Policy (TNEP) was formulated in 2009, and the Energy Strategic Action Plan defines and directs current and future energy developments so that Tuvalu can achieve the ambitious target of 100% renewable energy for power generation by 2020.

Does Tuvalu have a 'SIDS DOCK' initiative?

The highly volatile cost of fuel has proven very costly to the utility, and the government and the SIDS DOCK initiative certainly is embraced," said Avafoa Irata, CEO of Tuvalu's Ministry of Transport, Energy, and Tourism.

Companies and Business Registration Act ... Education (Conditions of Scholarships) Regulations : 1979-0006 : Education (Fees) Regulations ... Persons Entitled to ...

The project will include 770 kW of Solar PV and at least 1 MWh of battery storage, as well as upgrades to the existing power station controls, which will allow further renewable generation ...
