

Core battery price

What is a battery core charge?

A battery core charge is a fee you pay when buying a battery and is refunded when you return the battery for exchange. It is there to promote battery recycling. The core charge may not be for all batteries you buy, but all the lead batteries have a core charge included in their price.

How much does a new battery cost?

They're unavoidable and always confusing. You buy a new battery and there is automatically an additional fee added anywhere from \$10 to close to \$75 for a "core". A core charge is a refundable fee that is in place and required by law in most states to encourage the proper disposal of batteries.

How long does a core rechargeable battery last?

Get more brightness and battery life from your headlamp with the CORE rechargeable battery. It's compatible with a variety of Petzl headlamps and recharges in just 3 hours. Replace your standard batteries with it or charge it up as a backup for longer trips. CORE weighs just 23g and performs well in low temperatures. Looking for specific info?

What is a battery core?

A core is an old battery that needs to be returned to the store for recycling. It is important to note that to get your deposit returned you must bring back an old battery that is equivalent to the battery you purchased. Fun Fact! Core fees don't just apply to batteries.

Do core fees apply to batteries?

Core fees don't just apply to batteries. If you are a car enthusiast or DIYer who buys a lot of car parts you are all too familiar with cores. Many car parts like water pumps, alternators, brake master cylinders and air conditioning compressors have core fees for the same reason as batteries. To keep them out of landfills.

What is a Petzl core battery?

An economical and sustainable main or backup power source. The Petzl CORE is a high-capacity Lithium-Ion 1250 mAh rechargeable battery that guarantees high performance lighting for Petzl's HYBRID headlamps: TIKKINA, TIKKA, ZIPKA, ACTIK, ACTIK CORE, TACTIKKA, TACTIKKA + and TACTIKKA +RGB, even at low temperatures.
