

Energy Storage VAT Deduction Policy Document

Are battery energy storage systems exempt from VAT?

Effective 1 February 2024, the UK government has exempted retrofitted battery energy storage systems (BESS) from the 20% VAT. This recent and welcomed development means homeowners looking to upgrade their homes with energy storage now enjoy the same tax benefits as those incorporating energy-saving materials like heat pumps and roof-mounted solar.

Will the UK offer VAT relief on battery energy storage systems?

In a significant move toward green energy efficiency, the UK government has announced plans to offer VAT relief on installing Battery Energy Storage Systems (BESS), including retrofitted BESS, which will become exempt from its 20% VAT from 1 February 2024.

Will government grant tax relief on battery storage systems?

In a much-needed move towards energy efficiency, the government has unveiled plans to grant tax relief on battery storage systems.

Will the government expand VAT relief on energy-saving materials?

In the Spring Statement 2022, the government initially expanded VAT relief on energy-saving materials (ESMs). However, this expansion wasn't comprehensive enough. Responding to industry calls, the government conducted a Call for Evidence (CfE) to gather opinions on potential areas for further reform.

Why has the UK extended tax relief on battery storage systems?

"It's fantastic that the government has extended tax relief on battery storage systems. The expanded VAT relief aligns with the UK's commitment to reducing carbon emissions and promoting green energy solutions.

Can I get VAT relief if I install a solar energy system?

Previously, VAT relief was only available for domestic BESS if installed together with a new solar energy system. As of Feb. 1, a VAT zero rate will also apply to retrofitted residential BESS. The VAT relief also applies to BESS when installed in charitable buildings.
