

# Free solar panels when buying a house

Can you get free solar panels under a government scheme?

Applying for free solar panels under a government scheme provides UK households with an affordable way to cut electricity bills and reduce carbon emissions. With grants like ECO4, eligible households can access not only solar panels but also energy efficient systems like ASHP and insulation to further lower energy costs.

Can you get free solar panels in the UK?

Solar panel grants like the ECO4 scheme can help consumers get free solar panels in the UK. Currently, there is 0% VAT on solar panels, batteries, and other renewable energy products, allowing for a discount of over £2,850 on the purchase of a 4kW system.

Are free solar panels available under ECO4?

Though the price for a typical solar panel installation has reduced by 88% since 2010, we're all still interested in knowing if solar grants are available. Under ECO4, a grant is available for free solar panels. Find out more below about the free solar panel grant and the criteria below.

Are there free solar panels?

But there are very few free solar panel schemes available now. The Feed-in tariff scheme closed to new applicants in 2019 and has been replaced by the much-less-generous Smart Export Guarantee (SEG) scheme, making it much less attractive to businesses to offer free solar schemes. Learn about the Smart Export Guarantee scheme.

What is the free solar panel scheme?

The free solar panel scheme was a government initiative that aimed to help homeowners install solar panels on their properties for free that worth £5,000-£11,000. The scheme ran from 2010 until 2019 and was offered to homeowners who met certain criteria, such as having a south-facing roof and living in an area with high solar radiation levels.
