

HJ mobile power battery s magical use

How much battery does the Honor Magic 6 Pro have?

It has a 5600 mAh battery with 80W wired SuperCharge and 66W wireless SuperCharge speeds, and users can charge up the Honor Magic6 Pro to 100% in only 40 minutes. And before you go "meh" on me, let this sink in: The Magic 6 Pro was sent to Near Space in a show-off flight to over 16,000 ft in the air, and got back to Earth with 86% battery.

Does honor have a silicon-carbon battery?

Despite challenges like the material's volume expansion, Honor's integration of silicon-carbon technology has led to the development of the second-generation silicon-carbon battery, first introduced in the Honor Magic 5 Pro and now featured in the Honor Magic 6 Series.

Does the Magic 6 Pro have a lithium-ion battery?

The Magic 6 Pro still has a standard lithium-ion battery, but the use of silicon means the brand is able to increase the power density, and cram a larger battery into the device without increasing the size too much.

How long does it take to charge Honor Magic 6 Pro?

Enter the Magic 6 Pro. It has a 5600 mAh battery with 80W wired SuperCharge and 66W wireless SuperCharge speeds, and users can charge up the Honor Magic6 Pro to 100% in only 40 minutes. And before you go "meh" on me, let this sink in:

How long do honor batteries last?

Honor conducts rigorous testing to ensure the second-generation silicon-carbon battery's safety and durability, including environmental, reliability, and electrical tests, simulating performance after two years of daily use to guarantee long-term safety and reliability. Let's take an even closer look!

Is honor introducing a second-generation silicon-carbon battery?

Honor is introducing the second-generation silicon-carbon battery in the Honor Magic 6 series, a move reminiscent of Tesla's advancements in the EV sector.
