Can I trade in my old battery pack?

When performing a battery upgrade through our Service Centre, we are happy to trade in your old battery pack to offset the cost of your new replacement battery. These packs sometimes go on to use within older Leafs with even lower capacity battery packs.

What is a hybrid battery conversion kit?

A hybrid battery conversion kit contains a set of aftermarket hybrid battery replacement modules specific to your vehicle. These cylindrical or prismatic modules can be installed into an existing hybrid battery, replacing failed or degraded OEM modules. The conversion kit and aftermarket modules are built to the same specifications and performance as new OEM.

Can EV batteries be repurposed for aftermarket applications?

The first approach, motivated by Pugh's matrix analysis, explored repurposing EV Li-ion battery packs for aftermarket applications. The goal is to convert an EV battery pack into 11 starter batteries for the company's internal combustion engine (ICE) industrial vehicles. Each starter battery has a capacity of 1,68 kWh.

Can a car battery be replaced without opening a new battery?

In both cases the battery replacement or upgrade is achieved without the need to open either the new or old battery pack and can be performed by any skilled mechanic after engaging in a small amount of training.

How to recondition a battery module?

To recondition a battery module, we use the NuVant EVc-30 Reconditioner and test it using the Nuvant EVd-40 Power Tester. Both instruments are the industry standard when it comes to hybrid battery technology. The reconditioned modules are then balanced and remanufactured into hybrid battery packs.

Why do electric vehicles need a battery upgrade?

The high-voltage battery pack is the heart of any electric vehicle. An electric vehicle's range and performance are both dictated by what can be delivered by the HV battery. Battery upgrades are therefore the key to allowing existing electric vehicles to become far better than they ever were, even when new.
