Don't be afraid to shop around to see who's offering the best deal. What's covered under a solar panel warranty?

How long does a solar panel's power warranty last?

Most solar panel power warranties nowadays offer linear degradation, meaning a 0.7% output loss per year. However, some manufacturers like SunPower offer a much higher output guarantee after 25 years. In the past, power warranties were stepped, guaranteeing 90% output after 10 years and 80% output after 25 years.

Are solar panels covered under warranty?

And if you plan to get a solar battery with your solar panel system, the battery is covered under a different warranty. The average battery warranty is 10 years. Your solar panel's performance warranty guarantees that your panels will produce a certain amount of electricity over the term of the warranty.

What is a power warranty for solar panels?

A power warranty for solar panels states the expected output of a panel after certain periods of time (eg 5 years, 10 years, 20 years). All solar panels are affected by gradual degradation in efficiency, so the output will decrease. If the panels do not perform as promised, you may be able to get them replaced or repaired - but some power warranties do not cover defects.
