

# How to sell solar home electricity

How can a home owner make money from selling solar energy?

Earn money: Homeowners can earn money by selling back electricity to the grid in the UK through programs like the Smart Export Guarantee (SEG). Reduced carbon emissions: Selling excess solar energy back to the grid can help reduce the need for fossil fuels and decrease carbon emissions.

Can you sell solar energy back to the National Grid?

Householders and businesses with solar panels installed, who generate more renewable electricity than they need, can sell energy back to the National Grid under the Smart Export Guarantee (SEG). An increasing number of people are now benefiting from this government-backed initiative, and you could be one of them.

How can I earn from selling electricity back to the grid?

The best way to earn through selling electricity back to the grid in the UK is by using the Smart Export Guarantee scheme. Since January 2020, the Smart Export Guarantee scheme has offered small-scale low-carbon energy generators an opportunity to sell solar energy to the grid in the UK.

How much money can you make selling solar?

There is potential to earn between £80 - £170 yearly, if you choose to sell solar back to the grid. However, this amount can vary greatly depending on the size of your system and the tariffs offered by energy suppliers.

Can you get money from solar panels?

As a homeowner with solar panels, you may be able to receive payments for any excess solar energy you send back into the grid. Since 2019, the government has backed various schemes to help those who produce renewable energy, to benefit from sending their surplus into the national energy supply.

Should I Sell my energy?

The rates consumers pay to get energy from the grid is generally higher than the rates paid to sell energy, so it makes sense to use the electricity your panels have generated where possible. That means there's less need to import from the grid at a cost higher than you'd get for selling your energy. How much can I sell my electricity for?

That's why we back independent renewable electricity generation wherever we can. It's all part of our sustainability strategy, Plan Zero. By selling your electricity through OVO, you're not just earning revenue. You're playing your part in the ...
