What is a Mel-temp digital melting point apparatus?

1. INTRODUCTION. Your MEL-TEMP Digital Melting Point Apparatus has been designed for general purpose laboratory use in which samples submitted for analysis are enclosed in a glass capillary tube and brought to a melt point condition under strict controlled parameters of time and temperature.

Does the IA 9000 series digital melting point apparatus support eco mode?

All IA 9000 series Digital Melting Point Apparatus from Firmware version V0.30 will support Electrothermal's ECO mode power saving facility which gives the user the option of setting time out for the oven on/off facility together with the display back light and oven illumination LED's. 2. SYMBOLS AND USING THIS INSTRUCTION BOOK 2.1.

What is the installation and operation manual?

This installation and operation manual (hereafter also referred to as the "Manual") provides instructions for the safe installation and operation of crystalline solar modules. • Please read these instructions carefully before proceeding with your installation. • Please retain these instructions for the life of the solar modules.

How do I operate a Mel-temp oven?

MEL-TEMP Operation. 7.3.1. Connect the MEL-TEMP to the power supply as previously described. It will perform a self check while displaying the model and firmware version. The display will then turn to the Home screen which says 'Ready' and shows the MEL-TEMP oven's current temperature. Page 15 7.3.10. Reading the recorded melt data.

How do I read the recorded melt data?

Reading the recorded melt data. From the home screen press the 'Fn' key to enter F2Melt recall screen. Press the return key to display the melt point temperature. Press the return key to display the temperature the second melt recorded and so on for the third and fourth melts.

Can electrothermal copy the instruction book?

This instruction book is supplied by Electrothermal on the express understanding that it is to be used solely for the purpose for which it is supplied. It may not be copied, used or disclosed to others in whole or part for any purpose except as authorized in writing by Electrothermal.
