

Is there any rebate for buying new energy batteries

Will the government grant VAT relief on energy storage batteries?

In a much-needed move towards energy efficiency, the government has unveiled plans to grant VAT relief on the installation of energy storage batteries. This welcome move extends far beyond the previous VAT relief policy, which was limited to batteries installed concurrently with solar panels.

Are battery energy storage systems exempt from VAT?

Effective 1 February 2024, the UK government has exempted retrofitted battery energy storage systems (BESS) from the 20% VAT. This recent and welcomed development means homeowners looking to upgrade their homes with energy storage now enjoy the same tax benefits as those incorporating energy-saving materials like heat pumps and roof-mounted solar.

Are battery storage projects eligible for tax relief?

Tax relief eligibility for battery storage Projects The expanded tax relief encompasses three main categories of battery storage projects, each contributing towards the enhancement of the UK's energy grid's resilience and sustainability:

- o Battery storage integrated with Solar PV: Enhancing solar energy generation with storage capabilities.

When will a new battery policy be implemented in the UK?

The policy - set for implementation on February 1, 2024 - now also embraces standalone battery installations and retrofitted batteries alike. This long-awaited decision marks a pivotal moment for the energy storage sector, and in turn, the UK's clean transition. What is changing?

Why has the UK extended tax relief on battery storage systems?

"It's fantastic that the government has extended tax relief on battery storage systems. The expanded VAT relief aligns with the UK's commitment to reducing carbon emissions and promoting green energy solutions.

Will a VAT cut increase demand for home battery energy storage?

"The cut in VAT is exceedingly welcome and we have every expectation that it will increase demand for home battery energy storage," said Chris Hewett, chief executive of trade association Solar Energy UK. "By allowing solar power to be used after dark, it can double the savings offered by home solar power systems.

While we await the arrival of this new NSW Battery Rebate, you should know that SolarHub has been offering its own battery discount in NSW through the Smart Distributed Batteries ...
