

Lease rooftop solar panel contract

What is a lease-to-own solar agreement?

Our Lease-to-Own Solar Agreement allows you to enjoy significant cost savings and contribute to reducing carbon emissions. Under this agreement, you will lease the PV solar system for a duration of 10 years, during which you will make fixed monthly payments. You are not required to pay any upfront fees.

Should you lease solar panels?

There are five main advantages to leasing solar panels: Save money on electricity: the system will reduce how much energy you use from the grid when switched on. Low or no upfront costs: you don't have to buy the panels and other equipment upfront.

Are solar panels paying rent for your roof?

Technically, they're not paying rent for your roof, because you'll get the benefit of powering your home using solar power instead of grid electricity. They'll make money from the electricity you don't use. All excess electricity generated is sold back to the grid via the Smart Export Guarantee (SEG) scheme.

What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

Can I lease a roof space for PV panels?

Anyone considering agreeing to a lease of their roof space for fitting PV panels should be aware that most lenders' mortgage conditions will require the lender's consent to be obtained to any lease.

How do I end a solar panel lease in the UK?

To end a solar panel lease in the UK, you must make some form of payment to the solar company. The lease agreement will outline the conditions and formula for wrapping up the contract, but there are three broad options: Under a buyout, you pay the outstanding balance on the lease agreement.

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity
