How much do stairlift batteries cost?

On average, stairlift batteries range in price from as low as £15 to upwards of £100 each. The variation in price is often reflective of the battery's capacity and the technology it employs. To provide a clearer picture, here's a breakdown of the average costs one might expect for different types of stairlift batteries:

Where can I buy a forklift battery?

You can buy high quality Forklift Batteries at PHL. We deliver and install them for you.

Do PHL forklift batteries come with a 5 year warranty?

All new forklift batteries from PHL come with a 5 year warranty. What type of forklift battery should I use? This will depend on the type of forklift that you have. Certain types of batteries have different properties, for example, lithium-ion batteries are more expensive but weigh less and offer longer run times.

What are the different types of stairlift batteries?

The most common types are sealed lead-acid (SLA), nickel-cadmium (NiCd), and nickel-metal hydride (NiMH) batteries. Sealed Lead-Acid Batteries are often used in stairlifts due to their affordability and reliable performance. They're known for a long life span and maintenance-free advantage, as they do not require water top-up.
