

Lithium battery Iceland high current charging port

What is the largest rapid charging hub in Iceland?

The site at a hotel near Keflavík Airport will boast 20 chargers, making it the largest rapid charging hub in Iceland. InstaVolt, a British company now owned by EQT Infrastructures, launched in Iceland only earlier this year. InstaVolt Iceland aims to install over 200 chargers across the country.

Where are instavolt chargers installed in Iceland?

InstaVolt Iceland aims to install over 200 chargers across the country. Their first installation is under construction at the Aðaltorg Courtyard Marriott hotel at Keflavík Airport. There is no information on the type of chargers, but InstaVolt works with companies such as Tritium on DC charging elsewhere.

Is instavolt launching a EV charging hub in Iceland?

EV charging provider InstaVolt started working on its first public charging hub in Iceland. The site at a hotel near Keflavík Airport will boast 20 chargers, making it the largest rapid charging hub in Iceland. InstaVolt, a British company now owned by EQT Infrastructures, launched in Iceland only earlier this year.

Is it legal to use EV chargers in Iceland?

Yes, EV chargers are legal in Iceland. However, there is a problem with ICE cars and even some EVs blocking EV chargers. Unfortunately, you can only request to have them legally towed away if they are marked with an official sign (which is typically not the case).

Where can I get a charging key in Iceland?

For locations, see their map. You need an Icelandic ID number ('kennitala') to order the RFID charging keys, so tourists cannot obtain these directly. At least one Icelandic car rental company provides ON keys when renting from them.

Does IKEA have electric car chargers in Iceland?

IKEA has plenty of free chargers in Iceland. Since the IKEA restaurant is typically the cheapest (fast) food in Iceland, you can fill your car's battery with electrons and your stomach with french fries in parallel.
