Is there a traded price for lithium?

Unlike for other metals used to make electric cars, such as copper, there is no traded price for lithium. The London Metal Exchange is working to develop a tradable price for the white metal, but until then, the industry's investors, customers, analysts, and executives are left without a full sense of the global market.

What is the current share price of Lithium?

The current share price of Lithium is \$0.23 (as of Today at 12:54 UTC). This share price information is delayed by 15 minutes.

Can a UCITS ETF be sold back to a secondary market?

A UCITS ETF's units / shares that have been acquired on the secondary market cannot usually be sold directly back to the UCITS ETF itself. Investors who are not Authorised Participants must buy and sell shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees and additional taxes in doing so.
