

London regular battery price table

How much does a car battery replacement cost in the UK?

Having a car battery replaced professionally in the UK typically costs in the range of £162 to £460, including both the battery and labour installation costs, with prices varying significantly depending on the type of service center.

What if my car battery dies in London?

If your car battery's died in London or nearby, just book online and our Battery Assist service will fit a new one. Stay safe and let us come to you. Book our car battery fitting at home, work or when you're out and about - we fit most replacement batteries on the same day.

Do You stock Halfords car batteries?

We stock our own Halfords range of high-performance 12v car batteries alongside premium Yuasa car batteries. Batteries are sold with either a 3, 4 or 5 year guarantee (battery dependant). We also stock car battery chargers and charging accessories that will help to maintain the condition of your battery, keeping it working well for longer.

How much does a battery change cost at Halfords?

Halfords charges from £18 for fitting if you have it done in-store. If the battery is difficult to access or the car needs to be electronically reset or put on a trickle charge, then the pricing may be slightly higher. But if someone is asking £100 for a simple battery change then walk away.

Where can I buy a replacement car battery?

This means that the competition is quite strong--the replacement battery doesn't have to be labelled as a main dealer only part, and you can quite literally pick up car batteries from a wide range of outlets: high street automotive accessory stores, independent motor factors, main dealers, and of course, the independent workshop.

How can I maximise the value of my car battery investment?

Following proper maintenance tips, you can maximise the value of your car battery investment. When it is time to replace your car battery, why not consider Bumper. With Bumper, you can split the cost into 0% interest monthly instalments.
