

Mobile Battery Wireless

What is a wireless battery pack?

The new Wireless Battery Pack allows you to wirelessly charge any Qi-compatible device, so you don't have to worry even when there's no outlet in sight. *Limited to Samsung or other brand smartphones with WPC Qi wireless charging and wearables such as Galaxy Watch Active, Gear Sport, Gear S3, Galaxy Watch, and Galaxy Buds.

Can a wireless power bank charge an iPhone?

Most wireless power banks, including both Qi and MagSafe options, are finicky to use while on the go, and none of them will charge an iPhone or other fast-charging device at top speed.

How many devices can a 25W battery pack charge?

Check for compatibility. The 25W high-capacity 10,000mAh Battery Pack has wired super-fast charging which allows you to rapidly recharge up to 2 devices simultaneously, as well as the battery pack itself when it's low, giving you speed and power when you need it.

What are mobile charging brands?

Mobile charging brands are defined as brands iff more than 75% of their retail sales are contributed by mobile phone charging products, including chargers, wireless chargers, power banks, and charging cables³. These accessories can also be used for other consumer electronic devices. Subscribe now to get a gift with your first order!

How do I Reset my 25W Wireless battery pack?

*If devices are not charging, reset the 25W Wireless Battery Pack by pressing the power button for 7.5 seconds. With both a wireless pad and two wired charging ports, you can charge up to three devices in one go. It supports a variety of protocols to be able to charge your Qi-certified phone, Galaxy Watch, and earbuds.

Can I use a Qi charger on my Android phone?

We have some Qi power banks from traditional power players like Anker's PowerCore III 10K, and most mainstream brands are finally in the portable Qi game. Most Android phones that support wireless charging can be juiced up with Qi-enabled chargers, even if they have propriety charging profiles for wireless charging.

Instead of attaching to the back of your phone and charging it up using magnets (which takes a really long time (wireless charging is super slow), the Anker nano 5K has a little foldable USB-C ...
