

# Moldova brand lithium battery

How big is the lithium-ion battery market?

The lithium-ion battery market, valued at \$54.4 billion in 2023, is experiencing rapid growth, with projections indicating a surge to \$182.5 billion by 2030 and further expansion to \$187.1 billion by 2032. This remarkable growth, at a compound annual growth rate (CAGR) of 14.2% to 20.3%, is fueled by several key factors.

What is a lithium ion battery?

Lithium-ion batteries, abbreviated as Li-ion batteries, are a popular type of rechargeable battery found in a wide range of portable electronics and electric vehicles. At their core, these batteries function through the movement of lithium ions between a carbon-based anode, typically graphite, and a cathode made from lithium metal oxide.

What makes Panasonic a leader in the lithium-ion battery market?

Panasonic Energy Co., Ltd., with a rich history and strong market presence, is a key player in the global lithium-ion battery market. Its commitment to advancing technology and sustainable solutions marks its significant industry presence.

What makes Samsung SDI a leader in the lithium-ion battery market?

Strong market share and significant projects highlight its industry presence. Samsung SDI, with its longstanding history and strong market presence, is a leading figure in the global lithium-ion battery market.

What makes LG a key global player in the lithium-ion battery market?

Its unique "Blade Battery" and market dominance make it a key global player. LG Energy Solution, with extensive experience and a robust global network, is a key player in the lithium-ion battery market, focusing on electric vehicle, mobility, IT, and energy storage sectors.

Is Samsung SDI a good battery supplier?

Samsung SDI, with its longstanding history and strong market presence, is a leading figure in the global lithium-ion battery market. Its commitment to next-generation battery development and continuous R&D efforts solidify its role as a top supplier across various industries.
