

RV modified battery

Should I Convert my RV to a lithium battery?

Additional Benefits of Converting RV to lithium battery: You can install them anywhere. Unlike lead acid batteries, lithium batteries don't contain water or acid. You can install them sideways or upside-down with no problem. Also, they can stay inside your RV without ventilation. They're half the weight of lead acid batteries.

How many lithium batteries do I need for my RV?

Since lead-acid batteries can only be drained to (at most) 50% of their capacity without harm, you may only need half as many lithium batteries for the same usable power. The same is true if your RV has a bank of 6V batteries. In this case, each pair of 6V batteries could be replaced with a single 12V lithium battery (more on this later).

Do I need more batteries for my RV?

Fewer batteries are required to store the same amount of energy (or more). Since lead-acid batteries can only be drained to (at most) 50% of their capacity without harm, you may only need half as many lithium batteries for the same usable power. The same is true if your RV has a bank of 6V batteries.

Should I switch to a lithium battery for my motorhome or camper van?

Yes, it's worth switching to a lithium battery for your motorhome or camper van. A LiFePO4 leisure battery is smaller, lighter, and longer-lasting compared to traditional batteries. Lithium batteries also suffer less vibration damage when installed correctly. They can also be safely discharged completely without damaging the battery.

Should RVers switch to lithium batteries?

Switching to lithium batteries is a common upgrade for RVers. But is it as simple as dropping in a new battery? No, and we tell you why.

What is a LiFePO4 motorhome battery?

Look no further than At Eco Tree Lithium. LiFePO4 lithium battery technology offers plenty of benefits over the traditional lead and AGM batteries. Want to install a lithium leisure battery that can be charged quickly and provides maximum safety and longevity? Consider LiFePO4 motorhome leisure batteries from Eco Tree Lithium.

The simple answer is, the best campervan leisure battery is likely to be the one that offers enough power for your needs - and preferably more. This should allow you to power all of your campervan kit, even the more ...
