

# Ranking of foreign battery development companies

Who makes the most EV batteries in the world?

China is the undisputed leader in battery manufacturing, dominating the global production of essential battery materials such as lithium, cobalt, and nickel. Chinese companies supply 80% of the world's battery cells and control nearly 60% of the EV battery market. 13. Amperex Technology Limited (ATL) 12. Envision AESC 11. Gotion High-tech 10.

Who are the largest and most influential battery manufacturers?

We present the largest and most influential battery manufacturers, exploring their market positions and strategies that have enabled them to dominate the industry. Did you know? China is the undisputed leader in battery manufacturing, dominating the global production of essential battery materials such as lithium, cobalt, and nickel.

Where are the world's largest EV battery manufacturers in 2023?

Asia dominates this ranking of the world's largest EV battery manufacturers in 2023. See which battery makers feature in the top 10.

How many companies are involved in battery manufacturing?

Currently, there are thousands of companies globally involved in battery manufacturing, ranging from large multinational corporations to smaller, specialized firms. We present the largest and most influential battery manufacturers, exploring their market positions and strategies that have enabled them to dominate the industry. Did you know?

Which EV battery manufacturer has the largest market share?

According to SME Research, CATL is the world's largest EV battery manufacturer, with 37.7% of the market share. Plus, it is the only battery supplier with a market share of over 30%. CATL has 6 R&D facilities, five in China and one in Germany. In 2023, they spent about \$2.59 billion in R&D, an 18.35% increase from the previous year.

Who are the world's leading EV battery makers in 2021?

When IEEE Spectrum provided a snapshot of the world's leading EV battery makers in 2021, China's Contemporary Amperex Technology Co. (CATL) and South Korea's LG Energy Solution were industry's twin titans, each boasting a 26 percent market share.

The lithium battery industry is currently in a period of rapid growth. Driven by the development of new energy vehicles and photovoltaic energy storage markets, the power ...

The top 10 companies in terms of power battery installation capacity are: CATL, BYD, LG Energy Solution,

# Ranking of foreign battery development companies
