

Solar Photovoltaic Application Letter of Authorization

Can a building licensed electrical worker install a solar photovoltaic system?

**That I have informed the Building Licensed Electrical Worker of the building where the Premises is situated ("Building LEW") of the installation of the solar photovoltaic system at the Premises and the Building LEW has consented and agreed to such installation. That I am /we are not the legal owner / authorized occupier of the Premise.

When do I need a letter of authority?

There are two instances where a letter of authority may be required. First where the connecting customer is not the landowner. In this case the landowner will need to grant authority to the connecting customer to apply for a connection on their land.

How long is a letter of authority valid?

Please note that a letter of authority is valid for a maximum period of 12 months. If the required information is not provided or is unclear, then we reserve the right to request further information, which could cause delays to your connection offer. Are there exceptions to the requirement to provide a Letter of Authority at application?

What is a blank letter of authority?

Blanket Letter of Authority - when an application is made for a number of sites these can be made under one letter of authority provided the template (at the bottom of this page) is still used. Site reference (name of site and address) can be sent on an Excel spreadsheet along with the Letter of Authority.
