

Solar cell sales ranking

Who makes the most solar panels in 2022?

JA Solar, Canadian Solar, and Risen Energy rounded out the top six, in a year dominated by large-format modules. TrendForce says in a new report that the top six module manufacturers in 2022 shipped around 205 GW to 211 GW of PV panels, accounting for 76% to 78% of 270 GW of module demand last year. All of the main manufacturers are based in China.

Which solar brands have a strong market share in 2023?

The Top 4 and Top 5-9 lists remained relatively stable in 2023, with established and emerging brands holding their ground. JinkoSolar, Trina Solar, LONGi, and JA Solar collectively shipped over 270 GW, claiming a 52% market share. The Top 9 brands, in total, surpassed 400 GW in shipments, securing a robust market share exceeding 75%.

Who are the top 20 solar module manufacturers?

The module shipments of the top 20 manufacturers increased by more than 50% year-on-year, of which the shipments of the top four accounted for 59.95% of the total shipments of the top 20. The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as previous year.

Which solar companies have the most solar power?

Longi Solar took the first spot with 45 GW to 47 GW, followed by Trina Solar with around 43 GW and JinkoSolar with 42 GW to 43 GW. JA Solar came in fourth with 39.75 GW, followed by Canadian Solar with 21.1 GW, and Risen Energy with 16 GW. High-power, large-format modules dominated the market last year, according to TrendForce.

What is the market share of 210 mm solar panels?

The market share of 210 mm cells may reach 67.9%, with a capacity of 587.75 GW, an 83.7% increase from 2022. On the module front, large-format PV panels may reach 767 GW with a market share of around 90%, TrendForce said.

Which solar company has the best outlook for 2024?

JA Solar: Rose to the second spot with its integrated supply chain, global presence, and technological innovations. The company targets over 100 GW capacity across all segments by the end of 2024. Trina Solar: Maintaining an optimistic outlook for 2024, Trina Solar anticipates global module demand reaching 650 GW.

DAH Solar: Achieved an industry-leading average conversion efficiency of over 26.4% in TOPCon cells. Targets 100% n-type module sales share with a combined capacity of ...
