How much do solar roof tiles cost?

Because solar roof tiles are built into the roof, they are more expensive to retrofit on an existing roof. For example, a conventional 4kW solar panel installation costs around £6,500 to install on an existing roof. The price for a similarly sized 4kW solar roof tile system will come to more than twice that, between £12,000 and £16,000.

How much do solar tiles cost in the UK?

Solar tiles in the UK cost between £13,000 and £16,200 for the average home while regular solar panels can cost between £2,500 - £10,500. Solar roof tiles come in a variety of designs and can replace a standard roof, saving you money on electricity. The most popular solar tile providers in the UK are Tesla, GB-Sol, and Solecco.

Are solar tiles expensive?

Unlike traditional solar panels, solar tiles double up as a roof covering or roof tile replacement, so they will naturally be more expensive than bolting solar panels onto an existing roof. Solar tiles also require a longer, more complex installation, installed by roofers rather than PV installers, increasing costs.

What is a solar roof tile?

Solar roof tiles look like conventional roof tiles and perform the same weatherproofing function in protecting houses from the elements, but they also generate solar electricity for the home. A solar roof tile is a type of building-integrated photovoltaic system, and more and more new homes are being built with solar-tiled roofs as standard.
