

# Solar power supply What to do when it lights up during the day

What to do if your solar light turns on during the day?

The first thing you must do when your solar light turns on during the day is to turn it off and check the sensor. If you notice cracks on the sensor, the solution is apparent; you must replace it with a new one. However, if you cannot see a visible fault in the sensor, still replace it with a new one and see if that works for you.

How do you fix a solar light not working?

To fix solar lights not working, check and remove the battery pull tab, replace or deep charge the batteries, repair any damaged wiring, clean the solar panels, and ensure they're positioned in direct sunlight. How Do You Reset a Solar Light?

What if my solar lights come on during the day?

If your solar lights come on during the day, they might be exhausted. You need to give your solar lights a break so they can recharge and gain back their energy to function appropriately. If nothing else works, turn off your solar light and remove the battery. Please keep it in the dark, so it does not charge.

How often should you shut off solar lights?

In fact, shutting them off for 72 hours encourages the battery to charge completely. This gives the lights time (over the 3 days in the sunlight) to reach full functioning capacity. Do this regularly (once a month) with solar lights to keep them in optimal working condition.

How does solar lighting work?

Solar lighting is not connected to a normal lighting circuit with a switch but operates autonomously. This automatic on/off solar light circuit takes its power from rechargeable batteries and switches by using an internal photocell sensor that tells the light fixture whether it is day or night.

How to fix solar light sensor if solar panel gets too hot?

If you are experiencing problems with your solar panel getting too hot then the question of how to fix solar light sensor at this point is to re-position the panel towards the direction of the sun when it isn't at its hottest or ensure it has part shade for some of the day.
