

Solar tile construction price

How much do solar roof tiles cost?

An average of 3.5 kW solar roof tile system will cost you £9,500. Information last updated in July 2024. By contrast, on average, 3.5kW worth of solar panels will set you back £7,026. But remember, you are also getting a new roof with your solar tiles, so direct price comparison is slightly misleading.

Are solar tiles expensive?

Unlike traditional solar panels, solar tiles double up as a roof covering or roof tile replacement, so they will naturally be more expensive than bolting solar panels onto an existing roof. Solar tiles also require a longer, more complex installation, installed by roofers rather than PV installers, increasing costs.

Why do solar roof tiles cost more than solar panels?

Solar roof tiles generally cost more than solar panels because the technology is newer, the market is far less competitive, and the installation process is longer and more complex. Factors like the brand, the size of your roof you want to cover with solar tiles, and the system size will also impact the total costs.

Where can I get the best solar roof tiles UK?

You can get some of the best solar roof tiles in the UK from GB-Sol, Solecco, and XO Edge. What Are Solar Roof Tiles UK? Solar roof tiles are simply solar panels that look like roof tiles.

What is a solar roof tile?

Solar roof tiles look like conventional roof tiles and perform the same weatherproofing function in protecting houses from the elements, but they also generate solar electricity for the home. A solar roof tile is a type of building-integrated photovoltaic system, and more and more new homes are being built with solar-tiled roofs as standard.

Are solar roof tiles a viable alternative to traditional solar panels?
