

# The glue on the surface of the solar panel is scratched

Do solar panels get scratched?

Where a solar panel is concerned, once it gets so scratched it no longer performs, you must replace the entire thing. One of the best ways to prevent scratches from occurring is to regularly clean the surface of your solar panels with water. This stops dirt from accumulating, which is when scratches can easily occur.

How do I prevent scratches on my solar panels?

One of the best ways to prevent scratches from occurring is to regularly clean the surface of your solar panels with water. This stops dirt from accumulating, which is when scratches can easily occur. Also, keep the surrounding vegetation down.

What causes a broken solar panel?

The most common cause of a broken solar panel is cracked glass. If the glass on your solar panel is cracked, you will need to replace it. You can purchase a replacement solar panel online or at a local hardware store. Once you have replaced the broken solar panel, you can now proceed to the next step.

How do I know if my solar panels are underperforming?

The only sensible way to test which panels are underperforming would be to put either micro-inverter or optimisers on each panel. You may find that a panel with minor scratches performs worse than a panel with serious scratches. Solar Edge would be my choice if you were to go down this route.

Can a scratch on a PV panel cause water damage?

All MCS accredited panels are encapsulated in very thick glass and a scratch isn't going to make water go anywhere near the PV cells. I would suggest you ask for a replacement. If the modules were already scratched when the installer received them, the module warranty should cover that.

Can a scratch affect a PV panel's durability?

it just isn't acceptable. I really do not agree that the scratches can in any way affect the panel's durability. All MCS accredited panels are encapsulated in very thick glass and a scratch isn't going to make water go anywhere near the PV cells. I would suggest you ask for a replacement.
