

Tiantang Solar Power Generation Project Bidder

Where can I find a tender for a solar project?

The Bidstat website aggregates tender listings from the OJEU TED database, the UK Contracts Finder and the new Find a Tender service. The state-owned Solar Energy Corporation of India publishes tender listings and results for government projects, sorted by the submission deadline.

Why are solar photovoltaic (PV) tenders becoming more popular?

Protecting the environment and developing the green economy is becoming a focus for businesses and property owners as well as utilities and governments. This is driving an increase in the number of solar photovoltaic (PV) tenders being issued to award contracts for project construction and maintenance.

How many MW was awarded in a solar-plus-storage tender?

As usual, the solar tender was significantly oversubscribed, luring 98 proposals of 493 MW in total, against a target of 100 MW. The awarded capacity was 100.55 MW, coming from 18 projects. The bid price ranged between EUR 0.0355/kWh and EUR 0.0521/kWh. January 2020, 609 MW awarded in 2nd solar-plus-storage tender.

How to find out about solar pump tenders?

Keeping up with news across industry sectors covered by publications like pvMagazine is another useful way to find out about tenders. A recent pvMagazine article details a solar pump tender launched by the Indian state-owned company Energy Efficiency Services Limited (EESL), including the scope of the work and eligibility criteria.

How many MW of solar is awarded under 6th solar auction?

November 2020, 369 MW of solar awarded under 6th Solar Auction. The Japanese Ministry of Economy, Trade and Industry (METI) has selected 368.8 MW solar power capacity under the country's 6th solar auction wherein it sought proposals from projects with power generation capacity of 250 kW and above.

How much does solar cost in China?

The country's Ministry of Electricity and Energy allocated all tendered solar capacity in its first procurement exercise for large-scale PV. Final prices ranged from \$0.0348 to \$0.051 per kWh. China Machinery Engineering and Sungrow were the main winners, securing eight and nine projects, respectively.
