

# What is the factory tax rate for battery packs

Are battery energy storage systems exempt from VAT?

Battery Energy Storage Systems (BESS) were also exempt but with the condition that they must be installed alongside other energy-saving materials, such as solar. However, in a statement released on 11th December, the UK government made a noteworthy announcement--retrofitted BESS will now also be exempt from VAT.

Does 0% VAT apply to battery storage systems?

Yes, the 0% VAT rate will make the installation of battery storage systems more cost-effective, reducing the overall expenses associated with green energy solutions. Is this VAT reduction applicable to all types of battery storage systems?

Will the UK scrap VAT on battery storage systems?

The UK government's decision to scrap VAT on battery storage systems carries profound implications for the renewable energy market. It's a significant moment for the energy storage sector and the UK's clean energy journey. Plus, the tax relief on these technologies is in place until March 31, 2027, across the entire United Kingdom.

Will a VAT cut increase demand for home battery energy storage?

"The cut in VAT is exceedingly welcome and we have every expectation that it will increase demand for home battery energy storage," said Chris Hewett, chief executive of trade association Solar Energy UK. "By allowing solar power to be used after dark, it can double the savings offered by home solar power systems.

Can I get VAT relief for energy storage devices?

In this announcement, we capture the key factors that will allow you to get VAT Relief for energy storage devices and specifically batteries. The relief applies to the services of installing energy-saving materials in residential accommodation and charitable buildings.

Do batteries qualify for 0% VAT?

Batteries also qualify for 0% VAT in Great Britain if they are supplied as part of an installation with a qualifying material- in other words, a solar system. However, because batteries are not included on the list of ESMs itself, they do not qualify if installed as a standalone product.
