

What is the prospect of investing in capacitor industry

What is a capacitor market?

The capacitor market is a semi-consolidated market. The market is competitive with the presence of various large-scale manufacturers in the market across the globe. The capacitor market has long-standing established players who have made significant investments.

What is the future of the capacitor market?

Publisher: Lucintel Publication date: Get it in 2 weeks by ordering today. The future of the capacitor market looks promising with opportunities in the computer, telecom, consumer electronics, automotive, and industrial sectors. The global capacitor market is forecast to reach \$31.2 billion by 2027 with a CAGR of 5.9% from 2021 to 2027.

What is the expected growth rate of the capacitor market?

Answer: The capacitor market is expected to grow at a CAGR of 5.9% from 2021 to 2027. Q3. What are the major drivers influencing the growth of the capacitor market?

What is the future of the discrete capacitors market?

Looking forward, the publisher expects the global discrete capacitors market to exhibit moderate growth during the next five years. A discrete capacitor refers to a compact rechargeable battery used to store energy in the form of electric charges.

Where do capacitors come from?

The Asia-Pacific region is one of the most prominent markets for capacitors. The automotive industry is increasing in China, and the country plays an increasingly important role in the global automotive market. The government views its automotive industry, including the auto parts sector, as one of the country's pillar industries.

How big is the capacitor market in 2024?

The Capacitor Market is expected to reach USD 25.21 billion in 2024 and grow at a CAGR of 5.90% to reach USD 33.57 billion by 2029. TDK Corporation, Murata Manufacturing Co., Ltd., KEMET Corporation, Vishay Intertechnology, Inc. and WIMA GmbH & Co. KG are the major companies operating in this market.

The market report presents a thorough analysis segmented by Type (Ceramic Capacitor, Paper and Plastic Film Capacitor, Supercapacitors/EDLCs); by Application ...

This market report covers trends, opportunities and forecast in the global capacitor market to 2030 by end use industry (telecom, computers, consumer electronics, automotive, industrial, and others), voltage (low voltage and high ...

What is the prospect of investing in capacitor industry

Ceramic capacitors contain several plates stacked on top of one another to increase the surface area, while a ceramic material forms the dielectric between the positive and negative poles. Film capacitors wrap these plates ...

Statistics for the 2023 & 2024 Capacitor market trends, created by Mordor Intelligence(TM) Industry Reports. Capacitor trend report includes a market forecast to 2029 and historical overview. ...

capacitor market will be valued at \$28.9 billion by 2025, with an expected CAGR of approx. 5.5% between 2020 and 2025. Lucintel identifies five trends set to influence the ...

4 comprehensive market analysis studies and industry reports on the Capacitors sector, offering an industry overview with historical data since 2019 and forecasts up to 2029. This includes a ...

According to the analysis report on market prospect and investment strategy planning of China's capacitor industry in 2018-2023 issued by prospective industry research institute, there are ...

2023 High-Voltage Capacitor MarketData, Growth Trends and Outlook to 2030 The Global High-Voltage Capacitor Market Analysis Report is a comprehensive report with in-depth qualitative ...

The global capacitor market size is projected to reach USD 23.4 billion by 2023, with a Compound Annual Growth Rate (CAGR) of 6.2% during the forecast period from 2023 to 2030. This ...

Research Report on the Current Situation and Investment Prospects of China's Supercapacitor Market, the global supercapacitor market has reached \$16.9 US dollars ...

What are the growth prospects of Capacitor Market? Ongoing trends in the electric powered mobility region has amended the usage of automotive convenience structures which include ...

Hybrid capacitors combine the characteristics of EDLCs and PCs into a single device that can operate in faradic as well as non-faradaic modes [32]. In comparison to ...

Based on historical analysis (2019-2023) and forecast calculations (2024-2030), this report provides a comprehensive analysis of the global Capacitor market, including market ...

This market report covers trends, opportunities and forecast in the global capacitor market to 2030 by end use industry (telecom, computers, consumer electronics, automotive, industrial, and ...

Statistics for the 2024 Capacitor market share, size and revenue growth rate, created by Mordor Intelligence(TM) Industry Reports. Capacitor analysis includes a market forecast outlook to for 2024 to 2029

What is the prospect of investing in capacitor industry

and historical overview.

The widespread use of capacitors & incurring investment in electrical equipment manufacturing coupled with the product effectiveness in storing electrical energy, has contributed to the market growth. ... The growth prospects for the industry ...

2023 Electric Capacitor MarketData, Growth Trends and Outlook to 2030 The Global Electric Capacitor Market Analysis Report is a comprehensive report with in-depth qualitative and ...
