

Wheel sensor battery picture price

How does a tyre pressure sensor work?

A sensor valve in each tyre monitors tyre pressures and reports low pressures or tyre pressure imbalances to the driver via the dashboard display. TPMS sensors in the vehicle show a warning light when there is a drop in pressure of between 6-7PSI.

Where can I buy a replacement tyre sensor?

Search our car parts finder to select the right replacement sensor, with a range of leading brands in stock. Buy online or get your new sensor delivered to your local Halfords store. While you're there, you can pick up a digital tyre inflator at Halfords that will get your tyres to the optimum pressure in no time.

How do Michelin tyre sensors work?

Produced with British specialist Fit2Go, this Michelin-branded system is convenient. The four sensors are marked for each wheel; you screw each one on to the valve of the correctly inflated tyre, and secure them with a supplied lock nut and spanner. The sensors automatically pair with the display and give pressures for all four tyres.

Can a tyre pressure sensor be replaced?

If you've had a tyre pressure sensor malfunction, thankfully it's cheap and simple to replace the sensor. At Halfords, we've got a car tyre pressure sensor for all major makes and models. Search our car parts finder to select the right replacement sensor, with a range of leading brands in stock.

Can a solar colour monitor tow a car?

Specifically designed for towing vehicles, cars and motorhomes, the Solar Colour Monitor is light and small and can find a home in most vehicles. This TPMS kit is for use on one vehicle only - either a tow car, motorhome or caravan/trailer with up to four wheels.

Can I use TyrePal with external sensors?

For use with TyrePal internal sensors or TyrePal external sensors. TyrePal is the easiest, most efficient way to keep an eye on your tyre pressure and temperature, giving you continuous peace of mind that you will be safe from any blowouts whilst on the road.

Scrolls through every sensor continuously, allowing you to monitor every tyre individually. Quick trailer linkage allows you to select or deselect trailer monitoring at the touch of a button. ...
