Can I charge my electric car in Sydney?

Most charging stations in Sydney are compatible with a wide range of electric vehicles. Be sure to check on the map whether the station supports your car's charging standard, such as Type 2, CHAdeMO, or CCS. Where can I charge my electric vehicle in Sydney?

Where can I find NRMA EV charging stations?

You can find NRMA's fast chargers through the MYNRMA App, and other networks via the links below. Are EV charging stations free? Some EV charging stations are free to use but may still require you to download an app to activate the charger.

What EV charging networks are there in Australia?

There are a number of EV charging networks in Australia, including NRMA, Chargefox, Evie Networks, Tesla, BP Pulse, AmpCharge, Jolt and Exploren. Once complete, NRMA's national network will have one of the broadest footprints, with at least 117 DC fast chargers and numerous AC chargers via its partners such as Parks and Resorts.

Are EV charging stations free?

Some EV charging stations are free to use but may still require you to download an app to activate the charger. This helps network providers understand how chargers are being used. Other EV chargers require payment. Power is paid for by the kilowatt hour, and typically costs more for DC fast chargers than for slower AC chargers.

Where can I charge my electric car?

Whether you're in the city centre or in the outskirts, locate the nearest charging point for your electric vehicle with ease. Green Chargers are public chargers often type 1 or type 2. These EV Chargers may incur a fee. Orange Chargers are higher power charging stations like Tesla Superchargers.
