It will list all the battery sizes that fit your car. So, great. Now you have a list of batteries that will definitely fit your car.

How do I buy a car battery?

Enter your vehicle details to search for batteries suitable for your car or van. Buy online and book an appointment for car battery fitting at your local Kwik Fit Centre at a time convenient for you. Our online prices include VAT and apply to retail customers only.

How do I know what kind of battery my car needs?

It's easy to find out what kind of battery your car needs. You can do this online or at a reputable auto parts online store. Once you have the right battery, it's also important to make sure that the numbers on the old battery and the new battery match. If they don't, there could be problems with how they work together.

How do I find a Varta® battery?

Use our advanced search in the VARTA Partner Portal. To find a specific battery please type in your part number into the box. You're looking for the best battery for your car? Find here the right VARTA® battery with detailed product information.

How do I know if my car battery is bad?

CAR REGISTRATION BATTERY LOOK-UP Look for cracks, bulges, or corrosion, which could be signs of damage or leaking. If you notice anything wrong, it's best to replace the battery right away to keep the electrical system of your car from getting worse. You should also think about the weather where you live.

How do you know if a car battery has a date?

Well, you should start by opening the hood and looking at the battery's sticker. Many batteries will have a sticker printed with the date information. If the battery doesn't have this, then look for a heat stamp, engraving, or a strip with an alphanumeric code. The first two characters of the code should give you the date information.
