List of battery brands that include the most reliable models available. Top battery brands include those from major manufacturers of batteries including Energizer, Duracell, Panasonic and more. In strict terms, a battery is a collection of multiple electrochemical cells, but in popular usage battery often refers to a single cell.

What type of battery should I buy?

Shop around for AA and AAA batteries and the main types you'll find are alkaline and lithium disposable batteries. Lithium batteries last a lot longer in more energy intensive devices. We've found that they can give you 2-3 hours more power than an alkaline battery. But they're also much more expensive.

Which batteries become best buys?

Only the best batteries become Best Buys. Which? Don't Buy batteries Which? Don't Buy batteries run out of power sooner than better options

Do batteries rank better than other brands?

Ranking brands is different from ranking batteries, of course, and it turns out to be a lot more complicated. You cannot necessarily trust that every battery made by one brand is automatically better than every comparable battery from any other given brand.

Which AA batteries are best?

We've compared Energizer, Duracell and Panasonic batteries with supermarket own-brand batteries, such as Aldi, Morrisons, Lidl and Sainsbury's, to find the very best. Put a set of one of our Best Buy AA disposable batteries in your most power-hungry devices, such as a camera or torch, and they will last over three hours longer than the worst.

Which alkaline battery is best?

CinemaSound rated the cost per hour for Fuji's EnviroMax AA at the highest of all alkaline batteries they tested, edging out the Duracell Procell. Fujitsu is slightly more consistent in the sense that the battery brands we considered were almost all around the bottom of the pack, with the strange exception of the Fujitsu Universal Power AA.
