Are wall-mounted solar panels a success?

Our first-ever wall-mounted solar panel installation was a great success. This was also the first ever experience I had with installing solar panels. The system comprised four panels mounted in landscape mode. We used unistrut rails to mount the panels. The mounting rail and stages of progress of installing wall panels.

Which properties are best suited to wall-mounted solar panels?

Properties that are most suited to wall-mounted solar panels are ones that have large south-facing walls, which aren't covered by any shade. South-facing panels are exposed to sunlight throughout the day, which is especially handy for wall-mounted solar panels, given their performance is already hindered by their limited angle.
